Reviews

This ebook is very gripping and fascinating. Sure, it is engage in, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Ms. Ora Buckridge)

ART ANATOMY OF ANIMALS DOVER ANATOMY FOR ARTISTS

Dover Publications. Paperback. Book Condition: New. Paperback. 160 pages. Dimensions: 12.1in. x 9.2in. x 0.5in. A prolific author of books on wildlife, the great naturalist Ernest Thompson Seton was also an accomplished illustrator. Noting a dearth of general zoological anatomies for artists, he took it upon himself to create one. This volume is the result of his efforts. In it, he provides a definitive artists-eye view of the exterior anatomy of animals, helping readers depict surface features such as hair or fur, as well as basic body and facial structures. Chapters cover a number of domesticated and wild species: the anatomy, size, and proportion of the lion, tiger, leopard, and other members of the cat family; bears (including the grizzly, European brown, American black, and the polar bear); as well as the camel, Indian elephant, and the caribou. Additional sections consider the horse in motion, the gallop of a dog, and bird feathering. One of the most widely consulted books on the subject, Art Anatomy of Animals will be a valuable addition to the libraries of both instructors and students of art. This item ships from multiple locations. Your book may arrive from Roseburg,OR, La Vergne,TN. Paperback.
