# A treatise on linear differential equations Volume 1

Filesize: 5.8 MB

Reviews

An exceptional book as well as the font applied was fascinating to learn. It is loaded with knowledge and wisdom I am just easily can get a pleasure of studying a created book.
(Dr. Benjamin Lakin)

A TREATISE ON LINEAR DIFFERENTIAL EQUATIONS VOLUME 1

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 80 pages. Dimensions: 9.7in. x 7.4in. x 0.2in.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1889 Excerpt: . . . of no other singular points than critical points and poles, it follows that it is an algebraic function of x. This being true for any integral, let zt and z, denote two integrals of (i); we have then the relation The product of any two integrals, z, , z, , is then an algebraic function of x. If. z, and z, are two integrals, then 2, and 2, -f-. , will also be two integrals. The product-s, z, z, , and consequently, , will be an algebraic function of the variable. Every closed path starting from and returning to a point A can be reduced to a series of loops described round the points x . o and x I; we are therefore led to examine the behavior of the preceding ratio when we describe one of these loops. We will take for7, and, the integrals 0, and 0, ; then starting from a point A with the integral C0, -f-C0, and describing the loop x o in the direct sense, we shall, as we have seen above, return to A with the integral 7, 0 Cfa where Let p be the initial value of-7, and p its final value; then Making ra i-ri-y) this last formula becomes A) p-a K(fl-a). If the loop were described in the negative sense we should have (A) p-a (p-a). Now let the variable describe the positive loop around x i; the integral C0, Cp, changes into C, 0, V0a...
