

## Chemistry of the Non-metals

By Paul Powell, Peter Leslie Timms

Chapman and Hall, United Kingdom, 1974. Paperback. Book Condition: New. 244 x 170 mm. Language: English . Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.This book is a new attempt to interrelate the chemistry of the non-metals. In the early chapters, simple compounds of the non-metals with the halogens, hydrogen, and oxygen are surveyed, permitting a large area of chemistry to be discussed without the burden of too many facts. The structural relationships in the elemental forms of the non-metals are then used as an introduction to the catenated compounds, including the boron hydrides. In the concluding chapter, selected heteronuclear chain, ring, and cage compounds are considered. In some chapters, we have thought it useful to outline important features of a topic in relation to chemical theory, before giving a more detailed account of the chemistry of individual elements. The book is certainly not comprehensive and the bias in the material selected probably reflects our interest in volatile, covalent non-metal compounds. Suggestions for further reading are presented in two ways. A selected bibliography lists general textbooks which relate to much of our subject matter. References in the text point to review articles and to a few original...

### Reviews

*This pdf may be worth purchasing. This is for anyone who statted there was not a really worth reading. I found out this pdf from my i and dad encouraged this pdf to understand.*

-- **Mrs. Annamae Raynor**

*If you need to adding benefit, a must buy book. This really is for all who statted that there had not been a well worth reading. It is extremely difficult to leave it before concluding, once you begin to read the book.*
