USFA-TR-135 November 2000 3 Building Structure and Site The Dogwood Elementary School was located in an area of Fairfax County that is predominately resi-dential. The school housed elementary grades kindergarten through grade six. The main entrance to the school was from the bus loop running off Glade Drive, on Side One. A secondary entrance from the parking lot was on Side Two. Built in 1974, the school was a single story building occupying approximately 90,000 square feet. It was a noncombustible structure comprised of structural steel framing with brick and cinder block external walls. The roof had been replaced in 1994, and was constructed of corrugated steel, layers of fiberglass insulation, and five plies of roofing asphalt paper, topped with aggregate ( pea gravel ). The interior of Dogwood Elementary School was arranged in an open classroom design: basically a warehouse with a demountable ( extruded aluminum frame ) partition system for internal walls ( Appendix C,...
