

The Tropical Rain Forest: A Political Ecology of Hegemonic Myth-Making

By P. Stott

Institute of Economic Affairs. Paperback. Book Condition: new. BRAND NEW, The Tropical Rain Forest: A Political Ecology of Hegemonic Myth-Making, P. Stott, Our attachment to the tropical rain forest has grown over the past hundred years from a minority colonial pursuit to mainstream environmental obsession. The tropical rain forest has variously been assumed to be the world's most important repository of biological diversity and 'the lungs of the planet'. As Philip Stott shows in this magnificent monograph, neither claim has any basis in fact. The Northern environmentalist conception of the tropical rain forest is far removed from the ecological realities of the places it purports to denote. Most of the 'million year old forest' to which environmentalists sentimentally refer turns out to have existed for less than 20,000 years. During the last ice age the tropics were colder and drier than today and probably more closely resembled the savanna grasslands of East Africa. Most of the abundant plants and insects of the so-called tropical rain forest are equally novel, having co-evolved with the trees. Claims regarding the fragility of the ecosystems in tropical areas are similarly awry. Recent research suggests that a clear-cut area will return to forest with a...

Reviews

An exceptional publication as well as the font applied was intriguing to learn. It usually does not charge an excessive amount of. Its been designed in an exceedingly basic way and it is just after i finished reading through this book through which in fact altered me, modify the way in my opinion.

-- **Haylee Hackett**

It in a of the best ebook. It generally is not going to expense excessive. It is extremely difficult to leave it before concluding, once you begin to read the book.
